

KHAN ONG FERNANDEZ

co230532@adzu.edu.ph | 09949007934 | Ayala, Zamboanga City

OBJECTIVE

To apply my programming skills toward building secure, mission-critical systems and automating workflows while expanding my expertise into cybersecurity and defense-specific technology. Enhance operational efficiency and learn to integrate modern solutions within a high-security, professional environment.

EDUCATION

Ateneo de Zamboanga University (*Zamboanga City*) 2023 - Present

- Bachelor of Science in Computer Science
-

MILITARY ACHIEVEMENTS

- Philippine Air Force Cadre - Batch Sinag Animo: Top 5 Overall, Best in Field Stripping 2024
 - Reserved Officer Training Corps (ROTC) | Cadet Lieutenant Colonel 2nd Class 2026
-

TECHNICAL PROJECTS AND EXPERIENCE

Automated Climate-Controlled Irrigation System | Arduino, C++

- Developed an embedded system for automated soil hydration and temperature regulation via DHT11 sensors.

Traffic Command & Control (C2) Simulator | C++, Win32 API

- Engineered a modular traffic system using linked lists and state machines to manage real-time flow and pedestrian logic.

Social Development Unit Monitoring System | Next.js, Supabase

- Participated in backend debugging for data fetching issues, analyzing API responses to resolve UI rendering failures.

Multi-Angle Facial Verification System with Proximity-Based Ranking | Next.js, Supabase

- A biometric terminal that processes Front, Left, and Right profiles through a Pipes and Filters pipeline to verify identities using a 65.0% baseline.
-

TECHNICAL SKILLS

Development: C++, Framework: React, Laravel, SQL, Python, Embedded Systems

Creative & Tools: Videography, Video Editing (DaVinci Resolve), Figma, Arduino IDE, VS Code, XAMPP
